

Wellcare by Allwell cares about our members' health and is continually enhancing programs to improve the quality of care. We are pleased to announce we are expanding our collaboration with Evolent as the administrator of the Wellcare by Allwell Missouri Oncology Quality Management programs (OQM).

Effective November 1, 2026, radiation oncology services and oncology-related infused chemotherapeutic drugs, supportive agents and symptom management medications **will require a prior authorization from Evolent** before being administered in either provider office, outpatient hospital or ambulatory surgical center.

The Evolent oncology program will apply to the specialties of gynecologic oncology, hematology, medical oncology, neurological oncology, radiation oncology, surgical oncology and urology for the following diagnoses and associated ICD-10 codes for your Wellcare by Allwell Missouri (Medicare) members age 18 years and older:

Treatment plans will be reviewed using nationally recognized evidence-based guidelines. We hope you will find value in the following enhancements coming with the Evolent partnership:

- Real time authorizations for evidence-based treatment plans submitted through the Evolent online CarePro provider portal evolent.com/provider-portal
- Eligibility verification is available directly in the portal prior to submitting a treatment plan.
- Telephonic intake option, available for submitting treatment plans when needed by calling 1.888.999.7713.
- Radiation oncology and medical oncology physicians on staff to conduct physician discussions.

Wellcare by Allwell Missouri (Medicare) approvals issued before November 1, 2026 are effective until the authorization end date. Upon expiration, authorization requests must be submitted to Evolent. If authorization is not obtained from Evolent, claims may be denied. For services/treatment that did not require an authorization prior to November 1, 2026, an authorization may be required from Evolent for service/treatment dates on and after November 1, 2026.

Introductory (informational) training sessions will be scheduled for several dates in October. For more details and information on registration, please visit the Evolent webpage go.evolent.com/wellcare-program-changes-November-1-2026.
