

Show Me Healthy Kids

MANAGED BY HOME STATE HEALTH

Caring for children and youth can be challenging. *You are not alone.*

The Association for Training on Trauma and Attachment in Children (ATTACH) provides *expert-led* support calls for Parents and Caregivers of children with attachment and trauma challenges.

The calls are a *safe* and *empathetic* space to share experiences, struggles, and triumphs with others who are facing similar issues.

All expert-led support calls are virtual. Attend any or all calls for an ongoing source of community, guidance, and shared experiences.

Show Me Healthy Kids families are able to participate at *no cost!*

How to register:
