

Important Information New Clinic Billing Requirement Updated CLIA Information

Update - Effective May 15, 2016, all providers must comply with MO HealthNet billing guidelines for multiple clinic services, revenue code 510, performed on the same date of service under agreements with Home State Health.

Currently, Home State allows providers to submit separate claim forms, using revenue 510, when billing for multiple clinic services performed on the same date of service. For all dates of service May 15, 2016 and after provider's are required to bill all clinic services performed on the same date of service on one claim form, rolling up the units and charges into one line.

Important Reminder - Providers billing CLIA services to Home State Health Plan must include a valid and appropriate CLIA number (i.e., either a CLIA Certification Number or CLIA Certificate of Waiver number, as applicable) with the claim, as follows:

- For paper claims, a valid and appropriate CLIA number must be included in Box 23 of the CMS-1500 form.
- For EDI claims, if a single claim is submitted for those laboratory services for which CLIA certification or waiver is required, report the CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2300, REF02. REF01 = X4. If a claim is submitted with both laboratory services for which CLIA certification or waiver is required and non-CLIA covered laboratory test, in the 2400 loop for the appropriate line report the CLIA certification or waiver number in: X12N 837. (HIPAA version) loop 2400, REF02. REF01 = X4.

Update - Beginning March 17th, Home State Health Plan will no longer be rejecting the CLIA claims with missing CLIA information using the B5 rejection code. We will begin denying the claims as follows:

EXc1 – Denied: Invalid CLIA number

EXc2 – Denied: Procedure not allowed for CLIA certification type.
