

An important
message from
Provider Relations

January, 2019

Dear Ambetter Primary Care Provider:

Thank you for the ongoing care that you provide to Ambetter from Home State Health members. You are a critical component of our provider network and we want you to be aware of a new opportunity to serve our members.

For 2019, Home State Health contracted with Teladoc to provide telehealth access to our members. Teladoc is a nationwide telehealth provider, contracted with more than 3,000 providers in all 50 states. Telehealth services increase patient access to care and can help drive down emergency room visits. This will not replace our recommendation for in-person visits with a member's primary physician.

Many of Ambetter from Home State Health providers are already contracted with Teladoc. If you are not currently contracted with Teladoc, you may want to consider it in 2019. Contracting with Teladoc will enable you to be among the telehealth providers treating Ambetter from Home State Health members remotely, and, if you choose, patients from other plans as well.

If you are interested in learning more about becoming a Teladoc provider, please submit an inquiry to centeneproviders@teladoc.com someone from the Teladoc Physician Recruitment team will assist you.
