

Home State Health Partners with Availity

Thank you for your continued partnership with Home State Health. In an effort to improve our claims processing, our corporate parent, Centene Corporation, has selected Availity as their primary gateway connections for all plans including Home State Health. This change will allow Centene to better service our providers with more advanced engagement and communication strategies in the future.

There should be no impact to provider claims and other transactions. We are working with each impacted Clearinghouse through a migration effort including claims, remits, eligibility and benefits, and claims status. Each of these clearinghouses already submits transactions to Availity today. Clearinghouses are being asked to migrate the volume no later than February 17, 2017.

Clearinghouse list:

Change Healthcare / Emdeon / Capario / MedAvant / ProxyMed
TriZetto Provider Solutions / GatewayEDI
Zirmed
MedAssets / Xactimed
SSI
All Scripts / Payerpath
SDS – Smart Data Solutions
MD Online
Practice Insight
NEHEN
Netwerkes/Optum

In summary, no change is required for our provider community. Providers who currently submit claims through any of the clearinghouses listed below may continue to do so with no interruption to their current business process. Your connection will remain intact. Providers who submit directly or through other intermediaries may also continue to do so without interruption. Your current process will remain intact as well.

If you have questions about this change please do not hesitate to contact Provider Services at 1-855-694-HOME (4664).

➤ **Home State Health** is a Medicaid private health plan contracted to provide services under the Missouri Department of Social Services MO HealthNet managed care program. Home State is a MO HealthNet Managed Care Organization and owned by a joint venture of Centene Corporation (Centene) and Missouri Community Health Access.

Home State Health provides services to over 100,000 children and families across Missouri and is dedicated to transforming the health of the communities in which we live, work and serve through improved access to quality healthcare and whole-person care coordination and support services. Through collaboration with local advocate groups, Home State Health develops innovative solutions that are designed to eliminate barriers that affect quality healthcare and individuals' well-being for members.
