

ENT/Sleep Study Utilization Management by TurningPoint

Home State Health is excited to announce the recent partnership with TurningPoint Healthcare to provide utilization management services for ENT and Sleep Study procedures effective January 1, 2021.

TurningPoint Healthcare Solutions, LLC (TurningPoint) provides an innovative Ears, Nose, & Throat (ENT) Surgeries & Sleep Study Management Program which empowers the collaboration of patients, payers, and providers to improve the quality and affordability of healthcare services. Our comprehensive solution integrates evidence-based utilization management guidelines with clinical best practices, site of service optimization, specialized peer to peer engagement, claims review and management, innovative quality programs, and advanced reporting and analytics to promote the overall health management of each member.

TurningPoint is offering webinar training sessions to cover all program details and operational changes. Please register for one of these informational sessions by clicking the link below.
