## **What Are Fraud, Waste and Abuse?**

Fraud refers to a false action that is used to gain something of value.

Waste is the misuse of services.

Abuse refers to overused or unneeded services.

## **Fraud Statutes**

The **Anti-Kickback Statute** is a criminal statute that prohibits anyone (not only physicians) from knowingly and willfully offering, paying, soliciting, or accepting anything of value to induce or reward patient referrals or generate Medicare or Medicaid business. When contracting with physicians for services the following factors are required:

- There is a legitimate need for those services
- The services are provided as described in the contract
- Compensation is consistent with terms of provider agreement or contract and conducted in an arm's length transaction
- The arrangement is completely decoupled from the volume or value of Medicare or Medicaid business generated.

Violations of Anti-Kickback rules require proof of intent. Penalties can include fines, jail time, and exclusion from federal healthcare programs.

The **Stark Law** is a strict liability statute that does not require proofs of intent—meaning even inadvertent infringements are illegal. Quite simply, it is illegal for physicians to refer patients for Medicare-insured “designated health services”—clinical lab services, home health services, physical therapy, etc.—to an entity in which they (or a comprehensive list of related family members) have a financial stake. Penalties for Stark violations can include fines, jail time and exclusion from federal health care programs.

**The False Claims Act**—prohibits the submission of "knowing" false claims to obtain federal funds. The United States may sue violators for treble damages (three times the government's loss), plus \$5,500 to \$11,000 per false claim. The law is not limited to claims submitted with fraudulent intent. It also applies to "ostriches with their heads in the sand" who make false claims with "deliberate ignorance" or "reckless disregard" of truth or falsity, or "gross negligence." Everyone involved in a scheme can be prosecuted—even "down stream" providers or subcontractors who receive federal funds through third parties, such as government contractors and HMO's.
