

home state health®

Does your patient have Hypertension, Lupus, Renal Disease, Diabetes, or other conditions that require their blood pressure to be monitored?

Is it recommended that the patient monitor their blood pressure at home?

Home State Health has programs through Care Management to **provide support to your patients.***

HERE'S HOW

Call our Home State Health nurses at 1-855-694-4663 extension 6075125 Monday through Friday, 8am - 5pm.

—OR—

Email HSHPCareManagement@centene.com

Our Care Managers are here to assist. Our pregnant mothers with the following diagnosis will be offered our high risk OB CM programs:

- Hypertension, Chronic Hypertension, Gestational Hypertension
- Pre-eclampsia
- Diabetes (Type 1, Type 2, Type 2 diagnosed before 20 weeks gestation)
- Obesity (BMI > 30)
- History of clotting disorder
- Multiple Gestations
- Fetal growth restrictions
- Renal / Kidney Disease
- Lupus
