

Prior Authorization Process for Outpatient and Community Based Services Treatment Levels of Care

Prior authorization is required for Intensive Outpatient Treatment Services, ECT, TMS, and Psychological Testing for all treatment providers.

Prior authorization is required for Outpatient Treatment Services for **non-participating providers only**.

Providers will need to complete a Treatment Request Form in its entirety and submit via fax to 1-833-966-4342 or via provider web portal.

It is important to note that all information such as NPI, procedure codes, Dx code, etc., are included on the Treatment Request Form. Failure to provide all requested information may delay processing of the request.

Prior Authorization Forms can be found here:
www.homestatehealth.com/providers/showmehealthykids/show-me-healthy-kids-pre-auth.html

Providers can confirm whether a service requires prior authorization through utilization of Show Me Healthy Kids [Prior Auth Tool Checker](#).
