FREQUENTLY ASKED QUESTIONS

Why am I only seeing some transportation mode types?

The most appropriate modes for you are determined based upon existing standards and system logic. Those modes are shown in a list for you to choose from when booking a ride. If you need a mode that is not available for selection, you need to contact MTM.

Can I view and request rides for multiple family members with a single MTM Link account?

No. Currently each member needs their own account. In the future, we plan to enable members to view and request rides for additional family members.

If I have a recurring appointment, can I set a recurring ride through MTM Link?

No. Right now you can only schedule one ride at a time. In the future, we plan to introduce the ability set a schedule for recurring rides.

Can an employee at a medical facility or health plan use MTM Link to request and view rides on behalf of members?

Not at this time. Our current focus is to enable improved self-service options for members. In the future, we will expand self-service capabilities to other user types. However, we do have other platforms that might work for medical facilities and health plans. Email CO@mtm-inc.net for more information.

If I request or cancel a ride with an MTM Customer Care Representative or via IVA, will those trips be visible in my MTM Link account?

Yes. You can view all of your rides in MTM Link regardless of how they were requested or cancelled.
