

## Provider Data Audit

Home State Health is committed to providing easy and timely access to care for its members and your patients. A key component of these efforts is ensuring that the Home State Health provider directory correctly reflects your practice's information so that patients seeking care are able to identify your locally available health services and make informed decisions for themselves and their families.

Home State Health conducts regular outreach to all of our provider partners to validate the contents of our directories. A member of our customer service team will be contacting your office in the coming weeks via fax or telephone. Your assistance with these patient care efforts is greatly appreciated and will ensure that your patients have the most recent and accurate information available regarding your practice and your services.

Please be sure to notify your office staff of this audit so that they may route these inquiries appropriately.

Additionally, please remember to update your provider profile any time via our secure provider portal located at [www.HomeStateHealth.com](http://www.HomeStateHealth.com).

Thank you in advance for your cooperation. As always, Home State Health values your participation in our network and appreciates the quality of care you provide to our members. Please contact Provider Services at 855-694-HOME (4663) if you have any questions.
