

home state health.

Talk to your patients about annual Medicaid/MO HealthNet eligibility renewal.

They must verify their eligibility to continue their coverage.

As a healthcare professional, your patients look to you for expert advice.

So be sure to remind them that they are required to verify their eligibility every year or they risk losing their Medicaid/MO HealthNet coverage.

Thanks for all that you do for the health and well-being of your patients. If you have any questions, call 1-855-694-HOME (4663).

Here's how it works:

1

Your patient will receive a letter a few weeks before their Medicaid anniversary date with instructions to check eligibility. They can also visit <https://mydss.mo.gov/> to get renewal details.

2

It's very important that they follow through on these instructions or risk losing coverage.

3

If eligibility is confirmed, they can continue with their existing coverage. If they are no longer eligible for Medicaid, they can explore Home State Health's Marketplace option, Ambetter from Home State Health. <https://ambetter.homestatehealth.com/join-ambetter/become-a-member/how-to-enroll.html>
